

To whom it may concern,

This letter is written to confirm that Weilai Wang, male, D.O.B.: 20th October, 1996, commenced his work for Huawei Technologies Co., Ltd since 05 Dec. 2021 until now. Currently, Weilai Wang is working as a software engineer at Cluster Computing Networking Department. Currently his ordinary hours of work were usually 40 hours or above per week in average.

Weilai Wang has performed a full variety of tasks, including

- Collaborating with test engineers to understand the software requirements for high-performance switches. Participating in the drafting and reviewing of design documentation for the switch software.
- Designing efficient and scalable software solutions and writing clear and efficient code to implement new features.
- Leveraging CI/CD tools for automating the deployment and testing of new functionalities.
- Organizing code review meetings, working with the team to establish coding standards, and ensuring quality criteria such as security and maintainability are met.
- Promptly responding to, locating, and resolving software issues in the production environment; analyzing and fixing code defects.
- Being responsible for the delivery of requirements related to forwarding management in switch software.

Weilai is both bright and quite motivated. He has demonstrated an excellent ability to meet the demands of a Software Development Engineer role. In addition, he is also organized and reliable. I have been consistently impressed with his attitude and productivity during the time that he has worked at our department.

Please let me know if you need more information about him.

Sincerely,  
Yongzuo Yan

Department Manager, Cluster Computing Network Development, Huawei Technologies Co.
